

THE GLOBAL GOALS

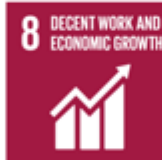

For Sustainable Development

Global Goals and Laudato Si

- Monday 19th May we will split the school up into 6 groups, includes Mrs Comrie, Mrs Byrne working with digital leaders group.
- Purpose is not only to make children aware of the Global Goals but importantly how they are linked to Laudato Si. I have made these links for you. Please see folder in staff share – curriculum – global goals
- Within the folder is also lesson plans and activities for each global goal.
- The aim is for by lunchtime to have finished an A3 poster for each Global Goal. An example of what this could look like is in the next slide. It includes the Goal, our promise or pledge, examples of what we can do as a school or what we do already. It would be good if we also incorporated the link to scripture. This could be by including the quote on the poster. These can be found in the Laudato si Folder. In your lesson you could sing a hymn and make the spiritual link very clear.
- Each teacher has 3 goals to teach, one goal is repeated! But that is ok. So everyone should have 3 posters.
- The afternoon would then be us all presenting our posters to the school, that way everyone can say they have learned the 17 goals!

This can be found in Global goals folder on staff share in curriculum too.

SUGGESTIONS

- Use the website to familiarise yourself with the goals. (some light cpd)
- Use the video clip to introduce the goals to the children [Overcoming the World's Challenges - The Global Goals](#)
- Use the Resource section in here to access short video introducing the goals.
- Use the staff share resources there is a good wee infant PP explaining the goals and is really child friendly.
- Feel free to use any other resources too!
- There are good resources in Twinkl too but remember the purpose is to have the children explain the goals in their words and it should be reflected in the poster.
- All of the Goals are nothing new! Pope Francis has highlighted many of these so be sure to make links to scripture! Have a wee look at the folder! (again some light cpd)
